

# CHELICHANA

PRODUCT CATALOGUE

2025

A black and white photograph of a gym machine, possibly a leg press or similar, with various tools and parts scattered on the floor in front of it. The machine has a large, padded seat and a handle with the brand name 'STELICMAN' visible. The background shows other gym equipment, including treadmills, in a dimly lit setting. The overall mood is industrial and focused on engineering and maintenance.

*Where engineering meets passion.*

*In Chelichana we're not just building equipment;  
we're crafting experiences.*

## WHO WE ARE

With 20 years of unparalleled experience, we've helped gyms, studios, and home users across the globe achieve their fitness goals through cutting-edge, high-performance products. Thanks to our background in manufacturing and our deep understanding of the strength community, we can offer quality, highly customizable strength equipment for indoor and outdoor spaces.

From conceptualization to production, we carefully craft each piece to exceed the most demanding standards, earning us a reputation as a trusted partner for fitness enthusiasts and wellness professionals.

Driven by a passion for fitness and a dedication to customer satisfaction, we continue to push the boundaries of what's possible, delivering innovative solutions that enhance athletic performance and improve quality of life.

BUILDING A STRONG, PROPORTIONAL LOWER BODY HAS NEVER BEEN EASIER. OUR STATE-OF-THE-ART MACHINES ARE ENGINEERED TO HELP YOU SCULPT SHAPELY GLUTES, POWERFUL QUADS, AND MASSIVE CALVES.

At a diameter of 450mm, our plates offer the perfect balance between size and weight. The lightweight construction allows you to focus on your form without compromising on durability. By reducing the load, you can work on your pulling technique, refine your bar path, and concentrate on overhead positions with greater precision.

# Improve your technique with style

TECHNIQUE PLATE

Designed specifically for Olympic weightlifting technique training, these plates are the ultimate choice for achieving technical perfection, preventing injuries, and facilitating rehabilitation.

# STREET WORKOUT

Street workout parks offer a multi-sensory experience, providing high-quality content for exercisers of all ages and fitness levels. We strive to make our workout areas more challenging and interactive, allowing both recreational users and professional athletes to continually discover new training challenges on our equipment.

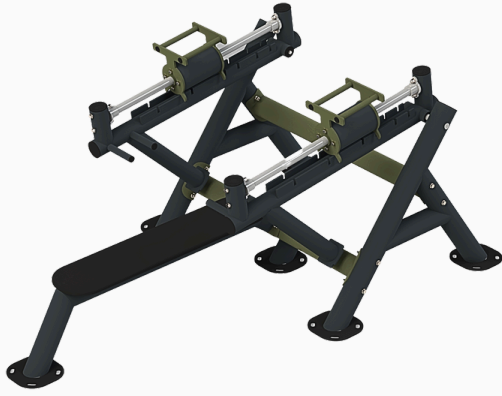

Our parks are manufactured and certified according to the standards: EN 16630, EN 1090, and EN 16899, ensuring they meet the highest global safety standards during use. In addition to offering opportunities for top-notch training, the parks encourage community engagement in an active and healthy lifestyle.

174 x 248 x 179 cm

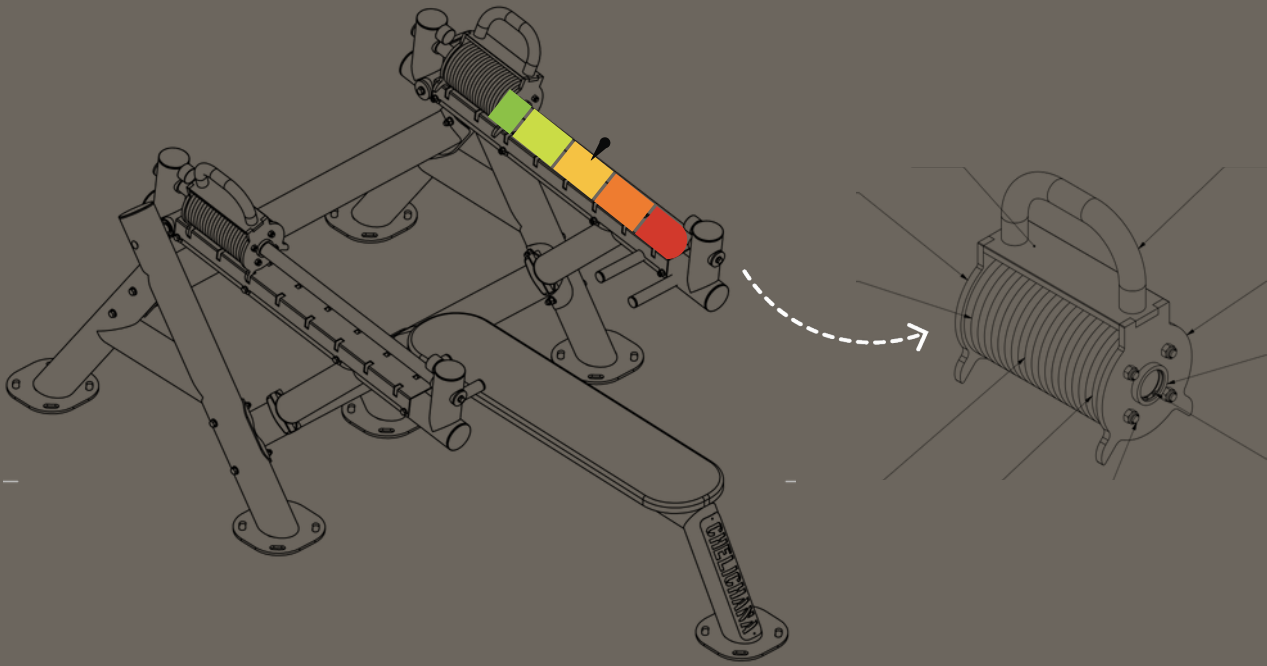

SW-C15

## DEADLIFT

332 kg  
168 x 232 x 135 cm

## UNIQUE WEIGHT SYSTEM

Its clever design allows weight plates to move securely and safely. Moving the weight increases and reduces the tension.

This system gives a far more natural feel (rather than the use of hydraulics) and is a fantastic progressive range for those users who are looking for that indoor gym feel.

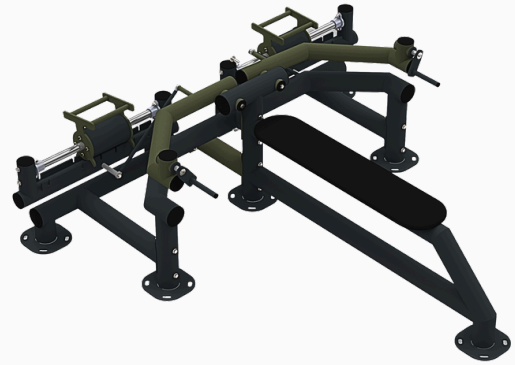

SW-C16

## SQUAT

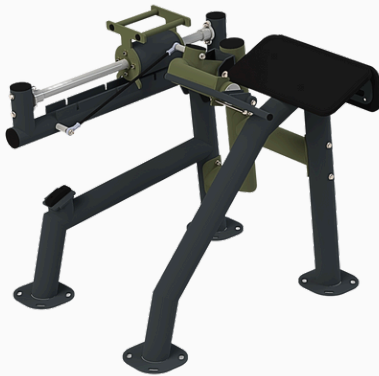

254 kg
